

Decimal Golf

Use 10-sided or decimal dice		Names Scores				Decimal Goals
Players: Write your name in a rectangle						Course rules: Roll the die. If using a regular 10-sided die, each number counts as a tenth. For example: rolling a 3 would be .3 and counts as one stroke. If your roll meets the goal, you make <u>a hole in one!</u> If not, continue rolling the die until the goal is achieved. Lowest score wins.
Hole	Par					
1	1					The decimal < 1 .
2	6					The decimal $= \frac{1}{2}$.
3	4					The decimal's numerator is even.
4	6					The decimal $< \frac{2}{5}$.
