

Fraction Golf

Objective: To be the player who gets the lowest total

Players: Two to Four

Materials per group: game board, a pair of regular dice

(Variation: Play with 8, 10, or 12-sided dice)

Procedure:

- Write names or initials in the squares above the empty columns.
- Roll the dice and make a proper or improper fraction.
- If the fraction doesn't meet the goal at that hole, you must roll again.
- Each roll of the dice counts as one stroke.
- Players take turns until all holes have been played.
- Total up scores for each player. Lowest score wins.

Hole	Par					Goals
1	4					The fraction < 1 .
2	6					The fraction $= \frac{1}{2}$.
3	2					The fraction is not in simplest form.
4	5					The fraction $> \frac{1}{2}$ but < 1 .
5	2					The fraction's numerator is even.
6	3					The fraction ≥ 1 .
7	7					The fraction $< \frac{2}{5}$.
8	4					The fraction is in simplest form.
9	2					The fraction $> \frac{3}{5}$.
Par =	35
